## Vision map

Defining your goals is a simple three-step process. First, you imagine an ideal future state in as much detail as you can. Then, you describe the current reality so that you can set up a comparison between the two. The last step is to create a bridge between the two worlds. What are 5 things you can do to get from where you are now, to where you want to be?

CURRENT STATE	B Next, describe where you are now. What is the current reality? Include how people feel today and describe their lived experience.	
BRIDGE	Finally, list 5 things you can do to get from the current reality to the desired future state.	$ \begin{array}{c} 1 \\ 2 \\ 3 \\ 4 \\ 5 \end{array} $
FUTURE STATE	A Start here. Imagine the future state in all its glory. Describe it, draw pictures, include emotional states.
